### 2ème PARTIE

Commençant à la page 271, sur papier vert, se trouvent les noms et les adresses des manufacturiers.

### 3ème PARTIE

Commençant à la page 485, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal en anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, p.e.: Quincaillerie, de construction: Cuir, coupe de bottines et chaussures. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, p.e.: Mécanisme de piano—Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on désire l'adresse de la rue, voir la 2-ème Partie, commençant à la page 271. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqués par un astérisque★.

### 4ème PARTIE

Commençant à la page 963, la Section Spéciale indique les noms des exportateurs principaux des produits de la ferme, etc. La traduction française se trouve au revers.

### 5ème PARTIE

À la page F-1 sur papier vert, la Section de Traduction Française commence. Les noms des articles donnés dans l'Indice Français sont suivis par leur équivalent en anglais, et l'équivalent anglais se trouve placé alphabétiquement dans la 3-ème Partie.

# The miracle on your wall

Behind the familiar wall switch lies the far-sighted planning and ingenuity of Canada's electrical industry that provides the low-cost power and the efficient equipment which is helping to raise our standard of living.

When you want light in a room, you just flick a switch. And, if that minor miracle is taken for granted, consider the other tasks electricity performs in the home.

It cooks complete meals—takes the labour out of cleaning, polishing, washing and ironing—keeps perishable foods in perfect condition—supplies hot water—provides radio and television entertainment—and keeps your home warm in winter and cool in summer.

While electricity in the home looms large with all of us, it should be remembered that the larger part of the power generated is used by industry.

In fact, it is primarily because of electric power that Canada has been able to develop her vast industries.

The story of Canada's utilities has been one of meeting ever increasing demands for power, until today Canada has become one of the world's most highly electrified nations. And tomorrow's needs will be taken care of by today's planning.

This company engineers, manufactures and supplies a complete line of electrical equipment including generators, transformers, switchgear, wire and cable for generation, transmission and distribution of electricity—as well as the motors and controls, electronic devices, appliances, lamps and all the products that put it to work.

Canadian General Electric is proud that electric power has become the pulse of the Canadian way of life, because—as

Canada's largest and oldest electrical manufacturer—we have helped to make it so.

THE ONLY  
INTEGRAL FINNED  
TUBE. Patented in  
Canada and patents  
pending.

Most of the difficulties associated with finned tubing are traceable to the mechanical or solder bond between tube and fins. With UNIFIN this source of difficulty is completely eliminated—because the fins are extruded from the actual metal of the tube wall—a feature unique to UNIFIN!

Only UNIFIN offers you these advantages—

- Uninterrupted heat flow from tube to fins.
- Uniform heat flux along the whole fin length, due to tapered fin section.
- Complete resistance to the effects of vibration.
- Ability to be formed into any practical shape without damage.

UNIFIN tubing is available in a wide range of tube diameters, fin spacings, fin heights, and wall thicknesses. For full information write to our Dept. "T"—and if you would like to examine the unique construction of Unifin, a sample will be gladly sent on request.

Unifin Duoflex two-row blast coil with end casing removed to show construction, is shown on the right. Write to our Dept. "T" for Bulletin No. 300 giving details of other complete heat transfer units, available through established fan companies.

This expansion program means a greater supply of high quality and efficient petroleum products to meet an ever increasing demand for an economical source of power and energy for Canadian agriculture and industry.

THE BEST INDUSTRIAL FURNACES MADE

Installations like  
these show how  
Sunbeam Stewart  
furnaces are helping  
manufacturers reduce  
cost and keep  
themselves competitive

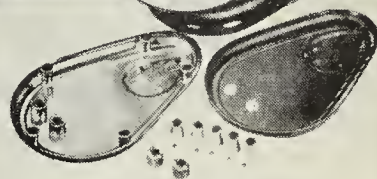

## ELECTRIC FURNACE BRAZING .. for Mass Production

A variety of Sunbeam products are copper brazed, silver soldered and bright annealed in the versatile Sunbeam Stewart Continuous Electric Brazing Unit. Result: increased production, lower operating cost and improved quality.

As a division of Sunbeam Corporation, Sunbeam Stewart has the practical advantages of designing furnaces used in the parent plant and working closely with the heat treating problems involved in the manufacture of Sunbeam's highly diversified products. This valuable experience enables the Industrial Furnace Division to render a service far beyond other furnace makers.

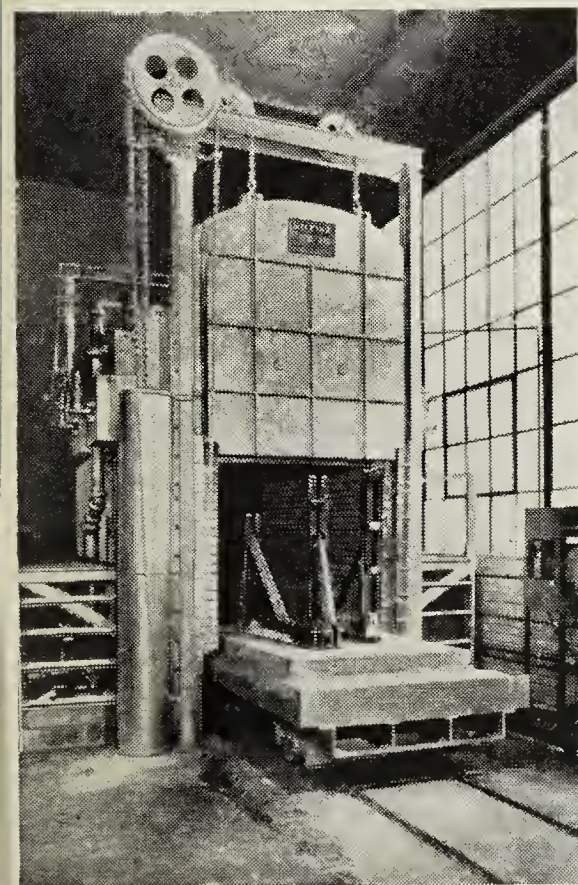

Sunbeam Mixmaster entire base is a brazed assembly (on certain models). Note bright sheen of brazed surface.

## DIRECT-FIRED CAR TYPE FURNACE

Stress Relieving, Normalizing and Annealing furnace for heat treating angles and ship structures in a leading shipyard. Roller Journal Bearings are a regular feature of Sunbeam Stewart construction. Linings and insulation are all individually designed for temperature and cycle requirements. Sand-sealed cars, with sand seal members of nickel cast iron for prevention of grain growth, prevent heat loss and lengthen car and door life.

Let Sunbeam Stewart furnace engineers help you. Send details of the product and production requirement and we will offer suggestions.

*Symbolic of Canadian Liquid Air operations are these two L. A. plants at Montreal. At the right, the big modern electrode plant, and at the left (in the distance) the large new oxygen plant which replaces the company's first oxygen plant in Canada (built in 1912).*

*Also at Montreal are other L.A. plants for manufacturing acetylene, medical gases and L.A. welding and cutting apparatus.*

**C**ANADIAN LIQUID AIR COMPANY has been identified with Canada's industrial scene for over 40 years.

A major supplier to industry of industrial gases, oxy-acetylene and electric arc welding equipment and supplies, Liquid Air operates a manufacturing and distribution network of 23 plants, branch offices, and warehouses from Newfoundland to Victoria, B.C.

These facilities have been expanded in recent years by enlarging existing plants and adding new ones at such places as Quebec City, Montreal, Hamilton, Port Arthur, Cranbrook; and the setting up of warehouses in Saskatoon, Sarnia and Waterloo.

Canadian Liquid Air operations will eventually be extended to the fabulous Aluminum project at Kitimat, British Columbia, where a Liquid Air plant is scheduled to be in operation this year.

Another important phase of the company's business is the manufacturing of complete liquefaction plants for the chemical and allied industries, process equipment, pressure vessels, exchangers, condensers, etc. This is carried out in the Construction and Machine Shops at Montreal, backed by a staff of highly qualified designers and engineers. Inquiries regarding such equipment should be addressed to: Engineering and Construction Division, 1111 Beaver Hall Hill, Montreal, Que.

from log train ...

... to paper train

## A Strong Link in Canada's Economy

ANY INDUSTRIAL OPERATION resulting in the sale of 275,000 tons of newsprint that brings into Canada's supply of foreign exchange some \$33,600,000 in U.S. currency must be considered economically important.

However, there are more reasons than this why Bowater's Newfoundland Pulp and Paper Mills Limited represent a decided asset to the wealth of Canada. There is the thriving town of Corner Brook where 13% of the entire population is directly employed by Bowater's. There are Bowater's 1953 purchases of Canadian-made equipment and supplies amounting to \$8,300,000. And there is the incalculable, but most certainly far-reaching,

effect upon commerce and the cause of freedom made by the newspapers of the world printed upon the newsprint of Bowater's.

Finally there is the well-known fact that pulp and paper is Canada's largest manufacturing industry. Consider therefore, Bowater's rapidly increasing production facilities that accounted for 337,000 tons in 1953 and you can appreciate the importance of this company to Canadians as a whole. From log train to paper train is a vital link in Canada's economy and Bowater's is helping to forge it strong enough to withstand any economic stress or strain the future might bring.

# THIS IS OUR ADVERTISEMENT !

We, INDUSTRIAL CANADA, are proud to present ourselves, as an advertiser, in such distinguished company as may be found here in Canadian Trade Index.

We are allowing ourselves a full page to advertise INDUSTRIAL CANADA, because we feel that we, also, have something to sell.

Advertising is communication, no less than Airways, Railways, Waterways and Highways. Therefore we, INDUSTRIAL CANADA, are a communication medium — conveying educational, constructive and enlightening information through advertising.

Every ad in INDUSTRIAL CANADA tells a story — some in color, some in picture, some in black and white — and every one representative of a dependable, successful Canadian business. And only Canadian products and services are advertised in INDUSTRIAL CANADA.

Our editorial content has consistently shown a clear picture of industrial development in Canada for almost 55 years, and will continue to reflect that development as the Canadian economy approaches full maturity.

Detailed statistics on INDUSTRIAL CANADA may be easily obtained, but one fact stands out — over one-third of the advertisers in INDUSTRIAL CANADA have been advertising with us for 25 years or more —

*Therefore, we do not hesitate to offer you*
